

TeamSupport Integrations

The TeamSupport Customer Service Platform is built to integrate with the tools you already use, helping your agents work more efficiently than ever. Connect channels and data sources so your team has everything they need in one place, or streamline workflows across products.

Connect with:

CRM & Marketing Automation	Communication	Project Tracking
 Salesforce CRM	 Slack	 Jira
 HubSpot CRM	 Microsoft Teams	 ServiceNow
 Microsoft Dynamics	 MailChimp	 Azure DevOps Server
	 RingCentral	

Simplified Custom Integrations

Rest API

Connect directly with TeamSupport and build your own custom integrations with our RESTful API

Zapier

Easily connect web apps and automate tedious tasks. No more waiting for custom integrations or building your own. Just set up a Zap.

“TeamSupport has given us one location to manage multiple aspects of our operations, and it is accessible by all employees, so operations are more efficient day to day.”

CLAUDIA THOMPSON
